Ondine Limited is committed to a Policy of protecting the environment, second only to considerations affecting the safety of people, and therefore conducts its business and operations in an environmentally responsible, sustainable and transparent manner.

In adopting this Policy, Ondine Limited supports, promotes, and practices positive measures to:

- Preventing pollution by implementing and ensuring comprehensive measures are in place to avoid accidental discharges and prevent pollution incidents, and contingency plans to ensure effective and immediate response to these incidents.
- Make environmental performance information available to interested parties upon request.
- Comply, and where possible seek to improve upon, all applicable legal and voluntary requirements.
- Ensure the environmental impact of new activities and technologies are considered at the planning stage
- Co-operate with Government, Maritime organisations, Trade & Industry associations, Suppliers and Clients in order to maintain high standards of environmental protection.
- Make available the necessary framework and resources to set environmental objectives and targets and to ensure that these, and the Environmental
- Develop best practice, cost-effective, controlled solutions to increase the efficiency of and reduce the impact from the company's environmental activities, especially with regard to consumption, disposal and emissions.
- Ensure all employees including 3rd Party Representatives understand their individual responsibilities and conform to high standards of environmental
- Protection through environmental awareness programmes, training, and initiatives.
- Maintain proactive environmental monitoring and audit programmes.
- The Integrated Management System is continually reviewed and improved upon where appropriate.

Ondine Limited are committed to providing the required leadership, management of resources and as a company will ensure that the Environmental Policy is communicated to all employees and interested parties.
